Grandview Rehabilitation and Health, a skilled nursing facility, has been servicing the community for many years. Located at 55 Grand St., Grandview Rehab provides long-term care and rehabilitation needs. They provide 24-hour skilled care and rehabilitation services in a comfortable and friendly environment. Their services include rehabilitative therapy, skilled nursing care, post surgical care, respiratory care, cardiac and pulmonary care, wound care and specialized dementia care.

Memory care at Grandview is based on the abilities of each resident, focusing on strengths rather than weaknesses. Every resident in the program receives a personalized plan of care with an ongoing assessment of changing need and they have individually tailored activities scheduled for seven days a week.

They offer physical therapy seven days a week and concentrate on individual patient goals. Specialized diets and fine dining are available and residents are encouraged to dine in the spacious dining room areas overlooking beautiful greenery.

Grandview Rehab is a large facility with 180 beds. It has been under new ownership since 2016 and has undergone major updates aesthetically and clinically. Common areas and resident rooms have been renovated and the facility is scheduled for new furniture later this year.

Their primary goal is excellent service. Their team of qualified professionals help patients recover from surgery, injury or serious illness. They understand the importance of creating a comfortable and nurturing atmosphere, whether patients are there for short-term treatment or long term care. Their staff makes every effort to ensure that their patients’ stay is both productive and enjoyable.

Grandview Rehab currently participates in Medicare and Medicaid. They accept private pay and most other commercial insurance as well.

The center is open 24/7 to accommodate any schedule. For more information about Grandview Rehabilitation, call 860-223-3617 or visit grandviewrehab.com.
